Add:No.644 ShiBei Indust RD|Panyu |Guangzhou 511440

Web:www.xwlabware.com www.gzxiuwei.cn

## KEY BENEFITS

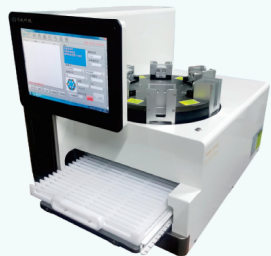

- ★ Adopts cold laser printing principle, printing surface without concave and convex.
- ★ The printing method adopts the exclusive double channel printing technology, which not only improves the printing speed, but also provides a spare channel, and the after-sales guarantee.
- ★ Suitable for any brand embedded cassette.

### Embedding Cassette Printer

XW-JBH-415

Loading capacity :4-12 Hoppers(optional), 80 embedding cassttes/hoppers  
Output capacity: 1 collection tray,15 embedding cassttes/tray  
Printing speed : <3 second/pcs

### Embedding Cassette Printer

XW-JBH-465

Loading capacity : 6 Hoppers, 80 embedding cassttes/hoppers  
Output capacity: 1 collection tray,170/200/500 embedding cassttes/tray(optional)  
Printing speed : <3 second/pcs

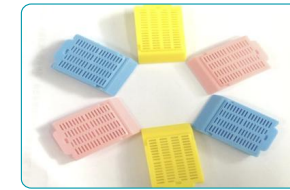

### Embedding Cassette Printer

XW-JBH-715

Loading capacity :2 Hoppers, 160 embedding cassttes/hoppers  
Output capacity: 1 collection tray,15 embedding cassttes/tray  
Printing speed : <3 second/pcs

## Customized Your Own Printer

01 Cold laser printing principle, no ink or ribbon need

02 Two channel operation. Single channel printing or two channels printing at the same time can be execute by system

03 Large capacity input

04 Clear printing, according to the need to print numbers, Chinese, characters, English, two-dimensional code and other content

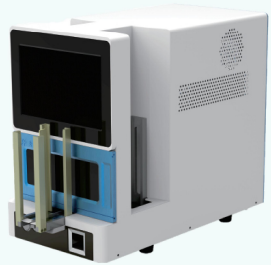

05 Suitable for all kinds color of embedded cassette

06 It can be connected with HIS, LIS and PACS systems of the hospital without additional software

## KEY BENEFITS

- ★ Xiuwei laser slide printer is a good solution to the problem of the operator on duty, choose centralized/separate printing.
- ★ Large capacity input hopper, can be placed 150 slides per time, one-time collection 300 slides.
- ★ Allow different color glass slides printing arbitrary switch.

### Microscope Slide Printer

XW-JZB-616

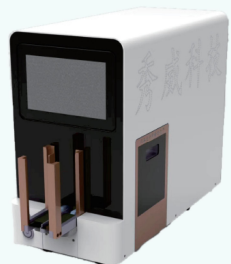

Loading capacity : 2 Hoppers, 150 slides/hopper  
Output capacity : 2 collection tray,150 slides/tray  
Printing speed : <3 second/pcs

### Microscope Slide Printer

XW-JZB-716

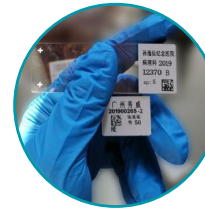

Loading capacity : 2 Hoppers, 100 slides/hopper  
Output capacity : 2 collection tray,100 slides/tray  
Printing speed : <3 second/pcs

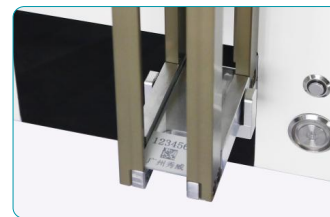

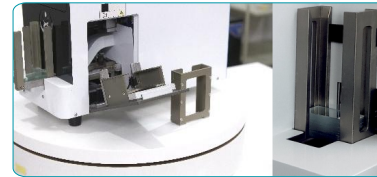

### Microscope Slide Printer

XW-JZB-416

Loading capacity : 1 Hoppers, 100 slides/hopper  
Output capacity : 1 collection tray,100 slides/tray  
Printing speed : <3 second/pcs

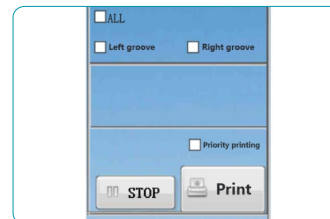

## Customized Your Own Printer

01

The first slide is always placed on the top, convenient for the operator to consult and check

02

Priority printing, when there is a frozen specimen or urgent specimen, can be priority button top printingA and it does not affect the subsequent printing process

03

Optional: Easy-to-load Slide Cartridge/External hopper

04

Clear printing, resistant to alcohol, xylene and other reagents, do not fade, two-dimensional code recognition rate of 100%

The first printer which able to print the slide and embedding cassette at the same time.

## KEY BENEFITS

- ★ Meet the requirements of large printing volume, but also solve the problem of insufficient department space.
- ★ One machine can print embedded box and slide, pathological information one corresponding.
- ★ Reduce your operation steps, improve the efficiency of the department.

### Slide & Cassette Printer 2 In 1

XW-JYTJ-102

For printing embedding cassette  
Loading capacity : 4 Hoppers(optional), 80 embedding cassettes/hoppers  
Output capacity : 1 collection tray, 15 embedding cassettes/tray  
Printing speed : < 3 second/pcs  
For printing slide  
Loading capacity : 1 Hoppers, 150 slides/hopper  
Output capacity : 1 collection tray, 150 slides/tray  
Printing speed : < 3 second/pcs

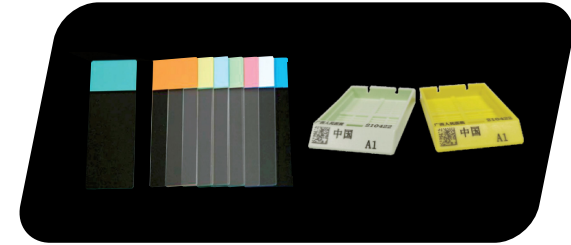

### Slide & Cassette Printer 2 In 1

XW-JYTJ-101

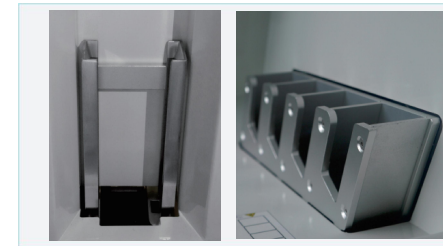

For printing embedding cassette  
Loading capacity : 2 Hoppers(optional), 80 embedding cassettes/hoppers  
Output capacity : 1 collection tray, 15 embedding cassettes/tray  
Printing speed : < 3 second/pcs  
For printing slide  
Loading capacity : 1 Hoppers, 150 slides/hopper  
Output capacity : 1 collection tray, 150 slides/tray  
Printing speed : < 3 second/pcs

## Customized solution

- Cassette input hopper: 1-12hopper (80 cassettes≥per hopper)
- Slide input hopper: 1-16hopper (100 slide≥per hopper)
- Printing principle: infrared/ultraviolet
- Built-in display screen (system)/ external computer
- Optional: Scanning gun

## Feature

**Cassette input hopper:** 1-6hopper (80 cassettes≥per hopper)

**Slide input hopper:** 1-2hopper (150 slide≥per hopper)

**Cassette output Capacity:** ≥15pcs

**Slide output Capacity:** ≥150pcs

It's able to print the slide and embedding cassette at the same time.

Patented technology - Able to print both embedded cassette and slides, save the space.
